1. The meeting with Judge Broderick went very well. We did not get everything we wanted but we opened the door for future negotiations.
2. According to Judge Broderick, the “Acknowledgement Form” was put out by his judicial advocate Steve Sherling and is only an advisory. Steve Sherling is in the process of revising it and removing any wording referring to a safe or keeping your guns in a safe. I don't have the exact wording but “Secure Storage Area” will replace it
3. Steve Sherling explained rather than revoking an offender's permit Judge Broderick gives them three chances, so that person's permit will be returned with restrictions very similar to restrictions placed on your drivers license. Level One, Level Two, or Level Three offenders may be require to have a safe.
4. Steve Sherling gave me his email & phone number and offered to come around to the clubs and give a talk. Most delegates thought it would be a good idea to invite Steve Shierling and Bill Ingham to the July picnic and have them introduce themselves. After the “Acknowledgement Sheet” is updated we will invite them to a future meeting to review

New information is in red. If a bill comes out of a committee we oppose and goes to the floor we send out alerts to members.

1. All 8641S2742A DelMonte/Volker Provides that the exemption provided for possession and use of a pistol or revolver at a pistol range shall extend to persons at least fourteen years of age. This bill has passed both the Assembly and Senate. This only allows 14-20 to handle handguns at a range under supervision; the removal of the upper age limit will be worked on next year depending on what happens in the elections.

2. SCOPE supports A10063/S7014, which provides that, outside of a city with a population of one million or more, gun-licensing officer in excess of statutory requirements may impose no additional restrictions. Basically, this bill would remove the discretionary powers of the licensing officer to restrict or deny a proper application for a concealed carry license.
